

## 13 Stories 2024

### Technical Specifications

### Old Idaho Penitentiary

\*1920 x 1080p at 23.976 frame rate only. If your camera or editing software doesn't allow for these settings let Anthony know **ASAP** so we can make a game plan on how to achieve a successful screening.

\*Use h.264 codec with either a .mp4 or .mov container. If you do not know what this is, please Google search or call Anthony.

\*All films should be under 800MB - ideally they should be around 400MB - having any film over 1 gig will have to be compressed by Anthony at a lower bitrate, reducing film quality.
